

ABSTRACT OF THE DISCLOSURE

There is disclosed a digital still camera in which  
a direction and speed of a tracing operation by user's  
fingertips on a touch panel are judged and a dynamic  
5 image reproduction process is executed in accordance  
with the direction and speed. For example, fast  
forward/rewind reproduction of a dynamic image is  
executed in response to a long and fast tracing  
operation to the right from the left or to the left  
10 from the right.
